Setup logrotate for nginx under windows

Create a batch script for the logrotate and save it as nginx_logrotate.bat

```
rem get date in format ddMMyyyyhhmmss
set dt=%DATE:~6,4%%DATE:~3,2%%DATE:~0,2%%TIME:~0,2%%TIME:~3,2%%TIME:~6,2%
set dt=%dt: =0%
rem move the current logfiles
move F:\Programme\nginx\logs\Access.log F:\Programme\nginx\logs\Access%dt%.log
move F:\Programme\nginx\logs\Error.log F:\Programme\nginx\logs\Error%dt%.log
rem tell nginx to write new logfiles
cd F:\Programme\nginx\
call F:\Programme\nginx\nginx.exe -p F:\Programme\nginx\ -s reopen
```

Then you can create a basic windows scheduler task which starts this batch script.

If you run nginx as a windows service, make sure to execute the windows scheduler with the same user as the nginx windows service is running. When you're getting the following error: "F:\Programme\nginx\nginx.exe/logs/error.log" failed (3: The system cannot find the path specified), make sure to not add nginx.exe to the ?p parameter value

It has been years that things are pleasurable for their side.

Anonymous on Aug 21 2020, 14:05

Hello, there. I know this is off-topic, but I was wondering which blog platform are you using for this site?

Anonymous on Aug 22 2020, 12:14

good article.

Anonymous on Aug 25 2020, 06:07

I enjoy this!

Anonymous on Aug 25 2020, 06:36

Wow this is good information to know. Thanks for sharing!

Anonymous on Aug 25 2020, 06:36

In humans, the clitoris has been firmly tied to sexual pleasure, though ? and this notion was initially brought to public attention only a few years ago .

Anonymous on Aug 25 2020, 06:37

You said it nicely.!

Anonymous on Aug 25 2020, 06:38

Interested to see how this partnership continues. Thanks for letting us know!
